

### Requirements of the Blenrep REMS

#### **Prescribers**

- Must complete training in and be certified with the Blenrep REMS program.
- Must counsel patients on the risk of ocular toxicity and the requirement of completing an ophthalmic examination prior to each dose.

#### **Patients**

- Must be enrolled in and comply with the Blenrep REMS program.
  - Enrollment form must be completed with the provider.

#### **Healthcare Facilities**

- Must be certified with the Blenrep REMS program.
- Must confirm that patients are authorized to receive Blenrep.

#### **Wholesalers/Distributors**

- May distribute Blenrep to certified healthcare facilities only.

### Monitoring/Dosing

- Conduct ophthalmic exams at baseline, before each dose, and immediately for worsening symptoms.
- Withhold Blenrep until patient improves; severity of symptoms should determine whether the patient resumes or permanently discontinues Blenrep.
